

## **WEBSITE LAUNCH ANNOUNCEMENT: Printmakers, Inc. Launches New Site**

Pawtucket, Rhode Island (August 26, 2009) - Printmakers, Inc. is eager to announce the launch of the next generation website for [www.Printmakersinc.com](http://www.Printmakersinc.com).

Printmakers collaborated with the marketing and design team of Terrapin Art & Design to provide a more comprehensive source of company information and services. The new site features a fresh design, focused on delivering information pertaining to products and services in an easy to navigate, aesthetically pleasing approach. The fusion of style and content provides customers with access to news articles, ordering software and a more clear depiction of the many services that Printmakers has incorporated to better serve customers.

Printmakers' Vice President Marc Masse said of the new design, "We are excited to launch the website and show off our new look. We want people to know that we have evolved, not only in providing a solution for every imaging need through technology, but also in our design and marketing efforts."

Owner and President, Tony Rodrigues, echoes those remarks, "Our new look shows our commitment to the future, adapting to challenges and learning from the lessons of the last two decades. We have an obligation and a strong desire to continue to grow and develop into future decades."

Printmakers is a full service professional photo lab serving professional photographers in every niche of the industry. In nearly two decades of service the crafters of Printmakers have been forging ahead to incorporate new technology in the ever changing environment that exists for the photo industry. With the customer always at the forefront of every decision Printmakers seeks to be your partner in excellence.
